

Jahir Ricardo Noriega Vazquez

SOFTWARE ENGINEER

My name is Jahir Noriega, and I've been learning software development since high school. I am currently studying at Universidad Tecnológica de Chihuahua. I just received my associate's degree in IT, and I'm still pursuing my college education to obtain my engineering degree.

WORK EXPERIENCE

AutoZone BTSSC

Internship
2023 -2024

- Developed a PowerApps application to optimize internal processes.
- Implemented automation to streamline repetitive tasks.
- Became familiar with key business processes, which allowed me to identify areas for improvement.

AutoZone BTSSC

Associate Programmer
2024 -Present

- Developed comprehensive reports in the BI department, providing valuable insights.
- Mastered WebFocus, enhancing my ability to create interactive and user-friendly dashboards for various stakeholders.
- Utilized SQL to extract, manipulate, and analyze data, ensuring accuracy and relevance in reporting.
